Re: EPA Sampling of Helfin, Gallagher
and D&RGW Property in Alamosa, Colorado,
commencing on June 26, 1990, until completion

Dear Mr. Helfin:

This will confirm our conversation of today in regard to the above sampling. It is my understanding that you give your consent to D&RGW representatives to accompany EPA on to your property to observe the sampling therein. As we discussed, we anticipate having at least one representative from Hydrologic Consultants, Inc. (David Bright). There is a possibility that an additional representative from HCI might be present. His name is Robert Sterrett. Additionally, our Director of Environmental Affairs, Lanay Fjeldahl, may accompany either Mr. Bright or Mr. Sterrett to observe the sampling efforts.

I appreciate your consideration in this regard. Please call me if there are any problems or changes.

Very truly yours,

Kathleen M. Snead
